

Self Introduction - Maturi Jaswanth Sai Madhu Mohan

Hello, my name is Maturi Jaswanth Sai Madhu Mohan, and I'm from Guntur District, Andhra Pradesh. I'm currently pursuing my B.Tech in Computer Science with a specialization in Cybersecurity at Dhanalakshmi Srinivasan University, and I'm expected to graduate in 2026.

I have a strong interest in network security and aspire to work as a Network Engineer, Web Penetration Testing, Api Penetration Testing or SOC Analyst. I've earned certifications from Various companies as an Ethical Hacker, which have strengthened my technical foundation.

My technical skills include HTML, CSS, Bash Shell, Python, SQL, and tools such as Kali Linux, Wireshark, Nmap, Nikto and Burp suit . I've gained hands-on experience solving over 10 CTF challenges and vulnerable machines, as well as Work as Bug Hunter in my free time and I've Found various bugs from different web applications and as well as in Google which got accepted and duplicate .

I'm a strong team player, with good communication, problem-solving, and planning skills. I enjoy collaborating with others to build secure systems and keep networks safe from threats.

I look forward to applying my skills in a real-world cybersecurity environment and contributing to the safety and performance of enterprise networks.
